Advantages for you

Bundled expertise in management and administration

Make Swiss Life Pension Services your strong, outsourcing partner. As an experienced provider of management and administration services, we can help you run your employee benefits institution, offering you the following advantages:

- You get to discuss all issues relating to occupational benefits with expert contact partners.
- You receive the best solution for you and your company.
- You access top-class management and administration services.
- You receive internet access to a state-of-the-art administration platform.

What we offer

Innovative services from a single source at a fair price

We set great store on working with our clients in a spirit of partnership and are committed to achieving the best possible results for you. Together with you, we will develop solutions for your employee benefits institution in the following areas:

Commercial administration

- Foundation bookkeeping in accordance with the legal guidelines

- Securities accounting management
- Entering consolidated values from subsidiary accounting (securities and real estate)
- Processing any tax-at-source deductions and settlements with the relevant tax office.
- Collecting employee contributions
- Preparing the annual accounts (balance sheet, profit and loss account and notes)
- Presenting the annual accounts at the board of trustee's Meeting
- Performance of Investment Controlling

Technical administration

- New company affiliations and new insured persons
- Withdrawals and terminations
- Technical entries (single allocations, purchases, prepayments, pledges, etc.)
- Issues relating to the use of occupational benefits for home ownership
- Notifications to the Swiss federal tax authorities
- Maintaining and updating employer data
- Carrying out serial updates
- Data deliveries and data extraction
- Entering and paying out benefit entitlements
- Pension confirmations and tax declarations
- Examining, calculating and effecting cost of living adjustments
- Year-end processing and salary adjustments
- Managing the technical accounts of the portfolios for insured persons and pensioners
- Various additional services such as electronically archiving updates, pension-specific information, pension fund statistics

Advisory services

Our pension actuaries can assist you with actuarial issues and help you develop solutions for pension governance aspects. Matters relating to the international accounting standards also form part of our core business.

Operational management

You can outsource your operational management services to us on a long-term, short-term or case-by-case basis

- Setting up, implementing and monitoring reliable operational procedures
- Developing and implementing an internal control system based on your management key figures
- Liaising with external partners (e.g. supervisory authorities, auditors, etc.)
- Providing regular information to active insured persons and pensioners
- Organising board of trustee meetings (preparation, holding meeting, taking minutes)
- Training and development courses for boards of trustees

Migration of systems and insured persons

- Managing migration project
- Analysing and implementing the planned requirements
- Transferring data
- Data consistency checks
- Testing results and data
- Transferring files and archiving
