Management Commentary and Outlook

The Infrastructure Global ESG (EUR) investment group placed around EUR 46 million in its target investments in the Q4 2023 reporting period. This consisted of capital calls for the target funds in the core infrastructure and renewable energy sectors. Equans was successfully added to the portfolio as the eighth direct co-investment. Equans operates in the district heating sector in the UK. In addition, a capital commitment of EUR 25 million was made to a German transmission system operator. The investment is planned for Q1 2024, which is when the next capital call will take place.
