

*I love
Risk scares me.*

*Life is full of changes.
Our financial and retirement provision
reflects that.*

SwissLife
The future starts here.

Invitation

to an exclusive event specially for expats in Zug Powder Tower

How will advanced economies cope with a change in monetary policy? What's next for the European economy? Is Switzerland – and Zug in particular – a tax paradise? What makes the Swiss pension system one of the best?

Economic activity and financial markets – what will the future bring? Sylvia Walter, senior economist Swiss Life Asset Managers, presents the outlook for financial markets and economies around the globe.

Cyrill Habegger, tax expert at BDO Zug, shares his expertise on the advantages of the taxation system in Switzerland and especially in Zug.

Why do other countries aim to copy our pension system? What are the advantages of the Swiss pension system? Walter Kooiman, Head of the International Team General Agency Zug, shows what non-Swiss should know and which opportunities are available.

The event will be held in a small, exclusive setting. After the presentations we will stay for more informal conversation and round off the evening with a tasting session of Swiss culinary specialties including cheese and chocolate.

We look forward to meeting you personally and swapping notes!

Yours sincerely

Swiss Life
International Team General Agency Zug
