

Payout plan – *Swiss Life CapitalPlan Invest*

Do you have capital that you would like to invest securely and with little fluctuation over the next few years and which you would like, for example, to use as supplementary income after retirement? Would you like to be able to choose between regular payouts and a one-off payout? If so, Swiss Life CapitalPlan is the right solution for you.

Challenge and solution

Do you have capital which you would like to invest securely without major value fluctuations? Would you like to decide for yourself whether you will receive your money in the form of monthly payments over a specified period or whether you will withdraw your capital in full at a certain point in time and at no additional cost?

With Swiss Life CapitalPlan Invest you get exactly that: a reliable, low-fluctuation investment solution with your choice of monthly payouts or a one-off payment.

How it works

You invest a one-off amount in Swiss Life CapitalPlan and determine from when and over what period the payouts are to be made. You receive a capital option at the start of the payout, allowing you to withdraw your capital in full without incurring any costs. You benefit from a total interest rate for the entire contract term.

You benefit as follows

- **Reliability:** low-fluctuation, reliable investment with attractive interest rate and low risk of loss
- **Decision-making freedom:** choose between a one-off lump-sum payment and monthly payments. This decision can be made prior to the start of the payouts.
- **Flexibility:** the start and duration of payouts can be selected individually; additional payments and early lump-sum withdrawals can be requested at any time.
- **Tax advantages:** no stamp duty, the monthly payouts are attractive from a tax point of view compared to life annuities.

Facts and figures

The offer

Type of solution	Payout plan (capitalisation product) with capital option
Financing	Investments in CHF
Saving and dissaving form	One-off investment, capital option or monthly payments
Additional payments	Application can be made at any time up to eight years prior to the capital option
Minimum investment	CHF 100 000
Taxes	From a tax point of view, the payouts consist of a capital repayment component and an income component. Income taxes are only payable on the income component. This is subject to reclaimable withholding tax. The contract balance is taxed as wealth.

The time frame

Minimum entry age	18 years
Maximum entry age	78 years
Maximum final age	100 years
Minimum contract term	22 years
Maximum contract term	40 years
Minimum deferral period	8 years
Maximum deferral period	15 years
Minimum payout period	14 years
Maximum payout period	29 years

The benefits

Payouts	Full payout of the contract balance is also possible on a monthly basis, if desired at the time of the capital option at no cost
