Core

The familiar and successful investment strategy of Swiss Life Premium Delegate is deployed in the core investment. The broadly diversified, global investment strategy is managed by Swiss Life Asset Managers using a risk-based, active approach and helps to diversify the overall investment.

Focus on Swissness

With Swissness you invest in domestic enterprise and enjoy the following advantages:

- Innovative, export-oriented Swiss economy
- Advantageous location thanks to stable framework conditions, transparency and high standards
- Invest in known, successful Swiss companies through fund investments
- Stable Swiss franc, no currency risks

Swissness contains investment funds that invest in equities, bonds, money market investments and real estate denominated in Swiss francs.

Focus on opportunity

Opportunity contains investment funds that are intended to generate a more attractive and risk-appropriate return from the SLAM asset manager's perspective. The composition of the portfolio may vary over time depending on the market situation and the selection of suitable funds. The asset manager evaluates the selection on a regular basis and adjusts the portfolio accordingly.

Focus on the environment

Environment contains investment funds that pursue ambitious and measurable sustainable investment targets in addition to financial targets and aim to make a positive contribution to the common good. Funds with an investment focus on the environmental aspect are selected for this theme (e.g. climate change, biodiversity or bonds that finance environmentally friendly projects).

The fund selection is based on three main criteria:

- i) meeting the minimum ESG-related criteria
- ii) demonstrating a measurable positive impact in practice and
- iii) quality in terms of return and risk.

Despite its focus on the environmental theme, the portfolio is broadly diversified and can consist of funds that invest in equities and bonds from this area as well as money market funds, mixed funds and real estate funds.

You will find more detailed information on the core investment and the three investment themes in our information sheets.
