

Financial security in the event of disability or death – *Swiss Life Protection*

Would you like some security from the financial consequences of disability or death? Swiss Life Protection keeps you free from financial woes following misfortune.

Prepared for anything

Life doesn't always turn out the way we'd like. That is why many people wonder what they can do now to be optimally prepared for the worst. Swiss Life Protection offers financial security in the event of disability or death and is an effective risk protection.

The two policies in a nutshell

Disability income insurance

With disability income insurance you receive an annuity from Swiss Life following expiry of a waiting period if you are unable to work following an accident or illness. Depending on your requirement, you can choose between a level and a rising annuity. The amount of the annuity payment depends on the degree of disability and the insurance benefit.

Term life insurance

In the event of death, Swiss Life will pay out the insurance benefit to your beneficiaries. You determine whether the amount of the lump-sum death benefit is to be level or falling, and whether the insurance covers one life or two. Depending on individual requirement, you can combine the disability insurance with the term life insurance – in one single contract.

How you benefit from disability income insurance

- *Replacement of lost income:* You receive an annuity if you lose income as a result of illness or accident.
- *100% benefit:* You receive 100% of your contractual annuity benefits from Swiss Life from a disability degree of 66⅔% and higher.
- *Adaptability:* You determine the length of the waiting period depending on pillars 1 and 2. That way you avoid a surplus cover and save on premiums.

How you benefit from term life insurance

- *Security:* In the event of death, you ensure your family or beneficiaries' financial independence.
- *Low premiums:* Non-smokers benefit from an attractive premium.
- *Immediately available:* In the event of death, your beneficiaries receive the full lump-sum death benefit – regardless of inheritance law.
- *Versatility:* You decide at the start of the contract whether the lump-sum death benefit should be paid out as a lump sum or annuity.
- *Mutual security:* If you as a couple or business partnership would like to provide each other with mutual security and have the death benefit paid out in the event of the death of one person exclusively to the other – regardless who dies first – you can save premiums with a contract covering two lives.

Facts and figures

Swiss Life Protection (applies to disability and death)

Financing
