

Swiss Life FlexSave Duo

Savings with a guarantee

*Do you want both guaranteed benefits and potential returns?
Swiss Life FlexSave Duo offers you both.*

Your challenge – our solution

With Swiss Life FlexSave Duo you can look forward today to a guaranteed minimum payout in the future. Furthermore, in good stock market years you will make gains through participation in the index basket comprising renowned indices.

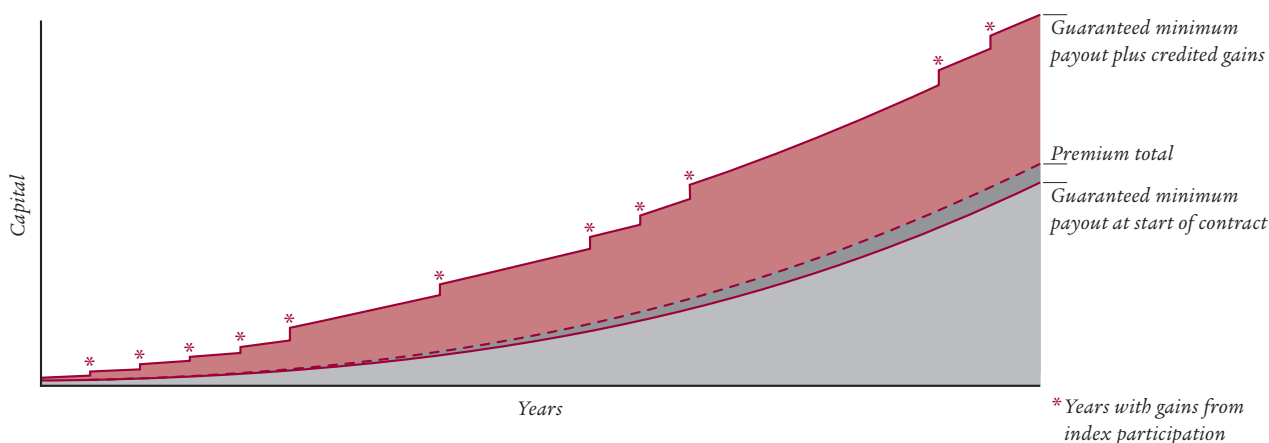

This is how it works

The gains from the index participation are credited to the insurance contract each year, increasing the guaranteed minimum payout on inception of the contract. The “Reinvestment of participation gains” offers you the option of increasing your potential returns. Years with negative index performance have no impact on the guaranteed minimum payout.

Your advantages

- **Security:** guaranteed minimum payout on contract maturity, which can gradually increase through participation gains.
- **Potential returns:** participation in the positive performance of the index basket. The “Reinvestment of participation gains” option increases the potential returns.
- **Tax advantages:** your taxable income in pillar 3a is reduced by the premium deduction during the contract term. The payout in pillar 3b is exempt from income tax.
- **Flexibility:** adjustment of risk coverage and switch from 3a to 3b or vice versa possible, premium interruption is possible if necessary.
- **Option Privilege:** coverage extension guarantee for uncomplicated increase in risk coverage (expansion of lump-sum death benefit at special conditions). The privileged partial surrender in pillar 3a also increases the equity for financing your own home.

Facts and figures

What we offer

Type of insurance

Swiss Life FlexSave Duo: traditional savings insurance with guaranteed benefits in the event of survival and in the event of death and index participation, which combines tax-qualified provisions (Pillar 3a) with non-qualified provisions (Pillar 3b), if necessary.

Financing

Premiums are payable annually, semi-annually, quarterly or monthly.

Index participation

The index participation is made possible through an interest bonus periodically credited to the insurance contract when applicable. This interest bonus is not guaranteed. There may be years without an interest bonus and thus years without index participation. If the performance of the index participation is not positive, the interest bonus used that year for the index participation is lost. The optional reinvestment of participation gains can increase the potential amount of participation gains in the following year. In the event of the negative performance of the index participation, however, the reinvested amount may be lost.

The benefits

Benefits

- Guaranteed minimum payout at the end of the contract. Index gains increase the guaranteed payout at commencement of the insurance.
- In the event of your death, your family receives a guaranteed payout. Various guarantee levels can be selected.
- If you are unable to work, Swiss Life pays the premiums for you (if insured).

Optional benefits

- Additional payout in the event of death
- Disability income
- Privilege option: increase the risk protection within the limit of the extension guarantee without a new medical examination and with privileged partial surrender in pillar 3a from second to tenth insurance year.

Risks

The benefits in the event of survival guaranteed at inception of the contract being lower than the sum of the premiums due. Earnings from the index participation increase the guaranteed benefits by the expiry date. However, if the accumulated participation gains prove inadequate over the contract term due to unsatisfactory index performance, the insured benefits may be lower than the sum of the premiums on expiry.

The options

Additional payments

Possible in Pillar 3a (including for funds previously certified)

Suspension of premium payments

- Pillar 3a: possible after three years
- Pillar 3b: possible after five years

Pillar switch

Switching between Pillars 3a and 3b possible

Loan

Possible in Pillar 3b

Prepayment and pledging

Offered in both Pillar 3a and Pillar 3b. The legal framework must be complied with for Pillar 3a.

Beneficiaries

- In Pillar 3a in accordance with legal requirements
- Freely selectable in Pillar 3b
